MEW HERRIN OBREGON STRATEGY SAVES MANY AMERICAN LIVES WAR SEEN

Thrilling Account by ex-President Feud Flares Up of Mexico of Seizure of Train Over Killings by Yaquis at Vicam

(The Times yesterday received from Gen. Obregon the latter's personal account of the seizure by Yaqui Indians at Vicam, Sonora, Mex., on the 11th inst., of a Southern Pacific passenger train on which the former President of Mexico and some forty citizens of the United States, including Los Angeles men and women, and some 350 others were passengers. It describes the remarkable piece of strategy by which Gen. Obregon contrived to get the Yaquis themselves to send a telegram for him, telling of the desperate peril of the passengers and asking for a rescue party, and how, by a monumental bluff about the size and equipment of his tiny military escort, Obregon managed to stare off for eighteen hours an actual attack on the train by the horde of savages surrounding it. When reinforcements finally arrived and the Yaquis were driven of the Yaqui uprising. Obregon's account, which incidentally betrays the fact that he refused safety for himself to protect the lives of others, was written in order to give the exact facts regarding an incident concerning which many wild rumors, some politically inspired, have been published.)

NOT A FAILURE

"National prohibition in America is not a failure nor is it going to be. It is simply not yet a complete success because there has not yet been time to force the battle in its behalf to final victory. A revolution so radical as this which has already displaced the once omnipotent baloon from its whole line of nation-wide intrenchments can not be finished overnight.

"Were the thing done so hastly, them indeed it might not last. But as against the epochal advance of irresistible reform outbursts of specious clamor and sneaking conspiracy no ward then need alarm no one. To watch, stand fast and press every advantage with fidelity to God and fellow-man is for prohibition's champions the certain insurance of uitimate success.

"In the not far future hour when america, not because of the law so nuch as because of a rising conscience and a clearing mind, extinguishes the fire of cupidity and passion that burned in the wineglass, the youth of America will go forth for life unmensced and unaffield, and trusted moreover with a freedom such as youth till now has never known in civilization."

Caltech-Occidental game who wanted to see the U.S.C.Stanford tilt in the Collseum, but who could not buy tickets, the graduate managers of Oxy and Caltech yesterday announced plans to give bulletins on the game at five-minute intervals at the game at Tournament Park. Radio-receiving sets will be installed at two places in the stands to follow the play-by-play report. The

THE impression seems to be very general that the victorious team in next Saturday's battle b tween Stanford and U.S.C. has the pigskin championship of the Coast nicely saited away. The Cardinals have no hard stuggles left on the schedule if they win, and the Trojans will have only the Oregon Aggies to conquer in case they come out on top.

Of course, U.S.C. has the toughest row to hoe because the Oregon Aggies are figured as a real stumbling block. However, those who saw both the California-Aggie game and the California-Aggie game and the California-U.S.C. affair declare the Bears were almost 50 per cent stronger against the Trojans than the Aggies.

Be that as it may, the Aggle team this year is composed of practically the same chaps who were annihilated last year by U.S.C., 28 to 0, and the Aggles never got any closer than the 1928 edition of the Thundering Herd is a much better ball club than the 1928 edition.

So, unless overconfidence gets the best of the Trojans, they should beat the Aggles, which

Judge Landis did not expect to qualify—be has watched baseball but has never attempted to demonstrate how it should be played—physically. After watching the efforts of many of Pete Daley's leading sluggers yesterday. Judge Landis elected to follow a match from the first tee. The first player up hooked deep into the rough on the left of the fairway. He unhesistingly prepared to play a second shot from the tee when the judge demanded, "Hey! Hey! Sailor—How come?" That was a foul, the player stated, and I have two more chances.

Judge Landis reeled—recovered and sent for his clubs, stroked home majositically with an even 100—the first time he has played in weeks, and will continue through the tournament through virtue of his envious position in the third flight of the second annual affair.

Ball players can catch something else outside fly balls, according to W. E. Dorsey, who is in charge of the fishing pier at Hermosa Beach. A party of major-league stars, led by Babe Herman of the Brooklyn Dodgers and former Coast League star, made the record catch of the season last week at his pier, Dorsey says. Herman and his party caught over 500 jack smelt apiece in a day's fishing at the pier, according to the story. Dorsey says they all were whoppers, too. Anyway, it's a good story, even if it is about fish, he says.

S ONE who hopes—and expected to see one of the most thrilling games in the history of the Coliseum next Saturday — we sincerely hope and trust that the Cardinals are not expecting to pail one of those second-half Garrison finishes against the Trojana. It might be done but it isn't likely to. The Cards have done it against the Olympic Clus. Calteeh, Nevada and Oregon because they had better reserves than the reserves that hese teams but they haven't any better reserves than the Trojans and we rather suspect that Pop Warner knows it and will be out to scare as early and as often as possible. Stanford's abest chance to win the game is to put a score across early in the game and then let the Trojans do the worrying, but this is much easier said than done.

(Noté to our friends who seem unusually numerous this week—Tes, we have no Stanford-U.S.C. tickets and we can't get any for you.)

Somebody signing "Prep Fan" wants to know what the heck is the matter with the city fathers when they put the Poly-LA. game at the start of the season. He says: "It's hard to believe that because L.A. had a weak team they wanted to get the game over. It this was the case I think it was unfair. The L.A. Lincoin game showed what a little experience could do for the weak Roman squad. Although Poly has a fine team. what's the matter with them, snyway?" Gosh, that's pretty hot!

D. D. says: "I've been shaking in my shoes every time I thought of the Oregon Aggies until I happened to look at their schedule—Multinomah, Gonzaga, Santa Clara, California and then U.S.C. It seems to me they are in the same position U.S.C. was in for so long—a soft schedule, hig scores and everybody scared to death of them until after the big game. U.S.C. bumped them off last year, and I believe they will this year—unning up big scores on weaker teams is no criterion, and if comparative scores mean anything, California scored on the Aggies. The Aggies won't have near the experience U.S.C. has had when they meet.

F. O. B. writes: "We are agreed that U.S.C. has a great football team, but I wonder if they ever heard of such a thing as a drop kick? Passing in the end zone is dangerous and they can't continue to have the high percentage of completed passes for touchdowns in the future, as opposing teams will be doubly alert. Lacking smashing power on the goal lines as they do, it would be advisable for them to try a few field goals. A three-point advantage over Stanfard or the Oregon Aggies would look mighty good any time."

With Andy Miller still resting with a bad ankle, Bert Schwartze, former substitute guard, has been converted into a center. Fred Coltrin, tackle, ascepted an all-round smashing from the slashing Sons of Troy, so is also recuperating.

Yale's defeat by Brown and Army's string of four successive victories supply the basis upon which critics have installed the cadet team as a favorite, yet no excess of confidence has been re-ported at West Point, for a paral-lel condition prevailed last year.

Army, with a powerful machine that had swept aside Notre Dame, met Yale two weeks before the Eli eleven had been swamped by Pennsylvania. The soldier team was a heavy favorite, but was completely routed by Tad Jones's brilliant backs, 28 to 7.

Under the Haughton system, when you were on the defensive, you were supposed to stand upright and box the attacking players away with your hands, pawing them this way and that and throwing them down. You were supposed to wait until the play developed, and then step in and stop it. The game changed and Haughton changed his system after he left Harvard, but Bob Fisher continued to teach it in its purest form. The result was that the other fellows were sweeping them out or "rolling them over and then walking on them."

"Then what is the new system," he was asked.

FARM STUDY ABROAD URGED

Expert Tells of Efficient Production Methods in Australia and Other Countries

CHICAGO, Oct. 28. (Exclusive)—Farmers of foreign countries are to be sely watched and studied by farmers in the United States in their ef forts to improve their own conditions. This warning of competition from abroad was given by Arnold P. Yerkes of the International Harvester Com pany and former head of the farm implement division of the Federal De-partment of Agriculture, at the Agricultural Club's weekly luncheon at the

partment of Agriculture, at the Agricultural Club's weekly luncheon at the Hotel Sherman.

Mr. Yerkee cited Australia as an example of a country where farmers are producing more efficiently than the rank and file of American farmers. Australian farmers, he finds, have studied the methods used by the best farmers in this country, and without American farmers' tradition they have had less difficulty in introducing our new ways of cutting down production costs on the farm. Bringing the efficiency of the poorer farmers up nearer to the level of the best farmers is one thing most needed, believes Mr. Yerkes.

Parmers in this country have been the fact that farmers in Canada, Australia and the Argentine country have been the fact that farmers in Canada, Australia and the Argentine country have been the fact that farmers in Canada, Australia and the Argentine country have been the fact that farmers in Canada, Australia and the Argentine country have been the fact that farmers in Canada, Australia and the Argentine country have been the fact that farmers in Canada, Australia and the Argentine country have been the fact that farmers in Canada, Australia and the Argentine country have been the fact that farmers in Canada, Australia and the Argentine country have been the fact that farmers in Canada, Australia and the Argentine country have been the fact that farmers in Canada, Australia and the Argentine country have been the fact that farmers in Canada, Australia and the Argentine country have been the fact that farmers in Canada, Australia and the Argentine country have been the fact that farmers in Canada, Australia and the Argentine country have produced an annual average of 300,000,000 bushels more where the war, while growers in the United States have only increased their output 100,000,000 bushels annually in the fact that farmers in Canada, Australia and the Argentine country have been the fact that farmers in Canada, Australia and the Argentine country.

CITES ECONOMIES

Mr. Hughes reviewed the administration of national and international affairs under Presidents Harding and Coolidge, and spoke highly of the economies effected by the Coolidge administration, the funding of the foreign war debts and the immigration and tariff laws. Advocating the election of Ogden L. Mills, Republican nominee for Governor, Mr. Hughes said:

"I have always liked the Governor, but I think it just as well to give another man a chance. There is no reason why the Governorship should become a personal prerequisite. It would be well at this time site. It would be well at this time

Under 25 Year lease to Mercadota Canner's Association Should Show Such Profits to Owners — Investigate — then Act!

California Must Grow More Kadota Figs! The entire crop of the State is not enough to supply the market. There is a shortage every year. When the Eastern Market is once opened up that shortage will be even greater. Growers of Kadota Figs are therefore sure of a demand for all they can produce. Owners at Mercadota Fig Farms will be among the favored growers of the state, because -

The Mercadota Growing and Marketing Plan Insures and Stabilizes Profits

You Own the Land Outright

Buy one acre - or as many acres as you wishat Mercadota Fig Farms, under guaranteed title. Your worries stop right there. You don't have to give time or further thought to your purchase. Because the entire 2000 acres are under 25 year lease to Mercadota Canners' Association, which assumes full responsibility.

The Association Cultivates the Land

Your land will be planted, brought into bearing with all expenses taken care of. You will be paid a fixed rental, yearly. In addition you will share in the crop profits in proportion to your The Canned Figs are Marketed

The Mercadota Canners' Association picks and cans the crop, and markets same under its trademarked Brand name—"Mercadota". The demand for canned Kadota figs runs ahead of the supply every year. There is an assured market for the output of the cannery, and the market can be widely extended throughout the East, which is as yet unacquainted with canned Kadotas.

Crop Price is Thus Stabilized

With an established market, at for subject to little if any fluctuation, the grower is certain of a far better crop income, year after year, than if he were dependent on the price paid at the tree.

Guaranteed fixed rental income starts at once. For 25 years you are sure of over 12% income, from these fixed rentals. Profits from the crop, under the Mercadota Fig Farms plan, should average 53% annually. These estimates based on established costs of care, picking, packing and marketing; estimates of yield are based on figures of the United States Department of Agriculture, with liberal allowances deducted therefrom. Only \$200 per acre down; you can start with as little as \$50 cash; balance in 40 payments at \$15 per month, paid to American Safe Deposit Co., Trustees.

GOOD GASOLINE KNOWS NO SEASON

Not New Quality st Quality

Every drop every gallon winter or summer, the finest that can be made

HOUGH constant research and dangerous chemicals or poisons was more official A.A.A. speedway vic-tories and world's records than all other gasolines combined, Richfield has never advertised "new" quality.

As a matter of fact, Richfield perfected easy starting gasoline many years ago—the so-called "winter gas-oline" now so widely advertised. Also, Richfield was first on the Pacific Coast to commercially introduce the new cracking process which will undoubtedly be adopted as rapidly as possible by every other gasoline refiner. This new process creates valuable hydrocarbons, producing a better balanced, more powerful and more volatile motor fuel than was heretofore possible although unsuccessfully attempted in some gasolines by the addition of various chemicals and "motor tonics."

Richfield is and always has been a pure, undoctored gasoline! Our en-gineers long ago proved to their own satisfaction that with gasolines ade entirely from Western naph-enic base crudes, the addition of

improvement have continually entirely unnecessary and in some most efficient of these chemicals as used in tetra-ethyl gasoline-tetra-ethyl lead, which because of its deadly poisonous nature has caused serious cases of lead poisoning—although effective in reducing the "knock" in gasolines made from Eastern crudes, is not only unnecessary but absolutely valueless in Richfield.

Richfield's continued improvement has been passed on to the public as a matter of course. The same high standard of manufacture and strict adherence to quality that have made Richfield the choice of the world's greatest drivers have at all times assured the motorist of the finest gasoline that could be made.

This year or next year, no matter what the season or where the place, you know Richfield is best! Compare is with any pure gasoline or any doctored fuel you wish and you will find it excels in its perfectly balanced qualities of easier starting, speed, power and mileage!

When a Better Gasoline is the you will get it from the Richfic Tump.

nb to Our Own Cadman

A place where it is easy to align oneself with the Divine Source of all that is real.

To the people of Southern California it is a mountain of strength.

We want them to know it and love it as

We want them to enjoy its benefits.

And we want them to help build and maintain a unique community on top of the world that shall hold up and enjoy all that is ideal in life.

Come to "The Land of the Sky-blue Water" for week-ends, Hallowe'en, Thanksgiving, Christmas, New Year, winter sports carnival in February, and when the flowers come in spring.

Come and build a home.

*Lake Arrowhead is unique.

It is the only thing of its kind that can ever exist in Southern California.

5000 acres of forest and lake, privately owned and completely controlled—in the midst of the Angeles National Forest.

Beside the country club, American and European hotels, cottages and camps, there is a complete village of quaint Norman-English architecture.

The handsome school building is of the same architecture as the village.

All homes are built in harmony with architectural requirements and restrictions.

Water, sewer, electricity, telephone, garbage disposal and all modern conveniences and sanitary conditions are supplied.

Purchasers of homesites receive a deed to the land, but title to the trees on the land remains in the Title Insurance and Trust Company for the protection of all trees.

Buildings are not permitted to be placed o as to mar the beauty of the scenery on the lake's edge or elsewhere.

There is a neutral strip of land between individual property and the water's edge. Access to the lake is provided for all home owners whether their homes are near the lake

All buildings are permanent and of highclass construction.

Country club, hotels, camps and stores are open all the year.

A woman's club has over forty active allyear members.

Homes that are not kept open all winter are likely to be filled with gayety at Thanksgiving, Christmas, New Year and during the winter sports.

Homesites should be acquired now so that plans may be worked out and the home erected before the busy summer.

LAKE ARROWHEAD WOODS are beautiful at all times of the year. Go often and enjoy them. Go north on Arrowhead Avenue from San Bernardino. Take the grade in Waterman Canyon loisurely—in lower speeds. Stop and enjoy the views. Road is wide, smooth and eiled. American and European plan hotels and cottages open all the year.

TAX LAW FAILS

Due to the failure of the new 7 per cent securities tax law to operate as its aponsors had hoped, the assessed value of personal and operative property, money and solvent credits decreased \$143,483,761 for 1926 as compared to 1928, according to Controller Riley.

San Francisco suffered a loss of \$98,982,405 on these items as compared with the 1925 roll, and Los Angeles county's loss was \$38,119,333.

"It is obvious," declared Controller Riley, "that the holders of foreign securities, money and solvent credits are reluctant to declare them for tax purposes."

BELIEVE that Teaeither hot or iced-is an ideal drink for American people. It has a stimulating effect yet it cannot harm the health of even the kiddies in the slightest degree. My own little girl of ten years of age has had at least four cups of India
Tea per day since she
was six. She is full of energy, rosy cheeked and has never had a serious illness.

Tea, if properly made, is a most refreshing drink. It cheers you up; it creates new energy. Try a cup in the after-noon and see what a splendid effect it has on your spirits. It is a great digestive. In England, the domestic servants drink from six to ten cups of tea each day. Manual workers like to drink tea. Office clerks and stenographers drink tea every afternoon. It helps to keep them happy and energetic. India Tea is cheap too! One pound will make 250 cups of strong tea, if you make it right. This is the correct way:-

Be sure you use India Tea or a blend containing India Tea, and make it in the correct way—as it is served in England. Use an earthenware teapot. Put into it one teaspoon-ful of India Tea for each cup of tea required. Be sure the water is poured into the teapot the moment it boils. Allow to stand for 5 minutes to infuse. Put a little milk or cream into each cup before serving the tea. It greatly improves the flavour. Then add sugar to taste.

Your retailer or store can supply you with India Tea or blends containing India Tea. He has no difficulty in getting it as practically every wholesale distributor of tea in this district supplies India Tea.

HOW DO YOU MEASURE THE INVESTMENT YIELD OF YOUR MOTOR-CAR?

YOU are proud of your motor-car. You've had it since 1920. You know a man, perhaps, who has driven his car since 1918. You believe six to eight years a long life for the average American motor-car. You are right.

But do you know what life the owner of a Rolls.

Royce expects from his car? Not six, eight or even ten years. But 20 years! In New York City twelve years ago there were 346 Rolls-Royce motor-cars, some of them eight years old. Today 265 are still in the hands of the original owners.

Rolls-Royce is the most profitable motor-car investment you can make. The first cost may seem high, but year after year the Rolls-Royce yields the same superlative comfort and freedom from mechanical ills as it did on the day you bought it. This motor-car is absolutely guaranteed against failure of any mechanical part for

You can make no comparison with the average good car, which is exchanged on an average of every three years. In 20 years an owner would have bought six or seven automobiles and would have invested \$14,000 to \$28,000. The Rolls-Royce, lasting 20 years, is beyond question an economical and profitable investment. (Just figure

\$1795.00 PAIGE SEDAN

Leading Position in Vote Columns Easy for Any Man or Woman Who Enters Now All Candidates Have Equal Chance for Prize Distribution When the Los Angeles Times' \$50,000 Automobile and Prize Campaign ends on December 18, the candidate in this list who has the highest vote standing will receive a beautiful \$5247 LINCOLN SEDAN as his or her reward. Twenty-nine others will spend a happy Christmas, too, with their fine new motor cars. Still others are to receive radio sets and cash prizes, and to the remaining candidates who are active will be paid 10% cash commissions.

Perhaps the man or woman who is to win the Lincoln Beden is not yet listed here. That person could be YOU! Why not? Aren't you just as active, just as ambitious, just as eager to own a motor car, as are these candidates? YOU CAN be the winner, and by entering now, you will find it easy to get a leading position in the vote columns.

Take these figures as an example: Nomination credit 12,000 votes Two news subscriptions to the Daily and Sunday Times by carrier—15,000 votes by carrier—15,000 votes First Subscription credit... 20,000 votes First Subscription credit... 20,000 votes Prizes, but remain active from the time they enter until the campaign closes will be paid a cash' commission of tan per cent (10%) on all new subscription money turned in.

SCHEDRIF OF

SCHEDULE OF REGULAR VOTES

Six of the beautiful motor cars to be given are Capital Prizes, and will be awarded to the six candidates, regardless of district or division who obtain the highest number of votes during the campaign. The candidate who leads the entire field in votes will receive a \$5247.00 LINCOLN SEDAN. The second-highest candidate will receive a \$3555.00 PIERCE-ARROW SEDAN. To the third-highest candidate will be awarded a \$2790.00 JORDAN SEDAN. Fourth-highest: a \$2593.00 GARONER SEDAN. Fifth-highest: a \$2140.00 PEERLESS SEDAN. Sixth-highest: a \$1795.00 PAIGE SEDAN.

The remaining automobiles (24)

SEDAN.

The remaining automobiles (24 in number) are Grand Prizes; they will be awarded to the eight highest candidates in each of the three divisions (see panel "How Territory is Divided") after the Capital Prize winners are eliminated. The Grand Prizes will be awarded in the following order:

Division 1—\$1535.00 Nash Sedan; slion 3935.00 Essex Sedans; two \$935.00 Charles Sedans; two \$935.00 Essex Sedans; two \$935.00 Charles Sedans; two \$935.00 Sedans.

SAFETY ZONES FOR DOLLARS

Practical Ways of Investing in Home Ownership, Savings Accounts, Life Insurance and Dependable Investment Securities

Raiance sheets of a corporation tail an important story to the man who is qualified to judge securities. To gether with the corporation's earning statements they give him at least a working basis for appraising the securities. A balance sheet is nothing but a summary of what the corporation owns and owes. It can be and often is very frank and open. exposing the corporation's every strength and weakness. Or it can be vague and tricky, successfully hiding weaknesses from eyes that are not accustomed to weigh balance sheets correctly.

Austin Davies, a good money-maker in the retail hardware business but only an average in knowing how to the vature what he searns, sought investment counsel on this subject of financial statements.

"The thinking of buying some bonds in the Zoom Company," he said. "They've been sending me circulars containing balance sheets or financial statements, but I can't hake anything out of them. Thought you could tell me where I could get some information."

"Let me see those statements which mean so little to you," investment Always Mean Dividends." XIV.—The STORY IN A BALANCE SHEET

Wheat Futures Shade Lower on Light Trading

CEIICAGO, Oct. 96. (Enclusive)—Speculative interest in the grain market was limited, wheet holding within a range of 1½ 61½c, the finish being within a fraction of the bottom, with not losses of %io, with December 1.63% 61.3%, or 80 under May, the relative difference showing no change. Cern was unchanged to ½6 lower, with December 71½ 671% and May 45% 684%. Outs were unchanged, with December 46% and May 1.0%.

There was no pressure on the wheat market.

35%, while mys was 15% lower, with December 1.00% and May 1.05%.

There was no pressure on the wheat market early, with lecal traders buying so the unexpected strength in Liverpool, which closed unchanged to 15% higher. There was a lack of the selling by houses with eastern connections, so minds in ovidence the previous day, but toward the last Winnipeg weakened, with the pool credited with selling November in that market, and prices here dropped sharply, with a lack of aggreenive buying. Winnipeg closed %6.01% lower.

Smottment was inclined to be a little bearish, as what little nows there was favored a lower range of prices. There was a noticeable lack of export demand at the asshound, with sales of 250,000 busheds in all positions. There was talk of a further advance in cossill freights in propert, with a continued good demand for beats to move one shread. Marketings of wheat in the three Canadian provinces are liberal, aggregating \$25,000 bushed in all positions. There was talk 139,000,000 busheds last year. The Alberta crop is estimated at 139,000,000 bushels last year.

Strength in Liverpool wheat was due to short covering and a searcity of near-by grain. Raly has been a good buyer of late, due in part to a mare favorable sunhanger rate. This Alberta crop is estimated at 139,000,000 bushels last year.

Strength in Liverpool wheat was due to short covering and a searcity of near-by grain. Raly has been a good super of late, due in part to a mare favorable sunhanger rate. This arported, will prevent empetition. Busney Aires closed sucheaged for the day, with weather conditions in Argentina freverbla.

Smottment in the earn trade is decidedly mixed and the bulk of the bushess was heream least

In Argentina favorable.

Bentiment in the even trade is decidedly mixed and the bulk of the bushness was between local operators, with the bulges finding grain for sale, while a good class of buying was in ordence on the breaks, the day's range being %-%-%.

Bushing returns from loss and Illinois remain disappointing, and there was a let-up in country efferings of did grain to arrive, while the agol bush was 4 (80 bulgens, with lower grades showing the most strength.

Launted tradings was on in casts, with the price

Keystone Telephone Company of Philadelphia

First Lien and Refunding Mortgage Gold Bonds

Dated October 1, 1926

Series "B" 6% Due October 1, 1951 INTEREST PAYABLE WITHOUT DEDUCTION FOR NORMAL FEDERAL INCOME TAX NOT TO EXCEED 24.

Upon application as provided in the Trust Agreement the Corporation will refund any taxes assessed and paid by the holder upon the income derived from or on the ownership of these bonds, under the laws of any State or Commonwealth or Possession of the United States, not in excess of Five Mills per annum on each dollar in principal amount, to holders resident in such State or Possession.

THESE BONDS ARE LISTED ON THE BOSTON STOCK EXCHANGE.

The following information has been summarized by Mr. F. Clark Durant, Jr., President, from his letter to us:

BUSINESS: The Keystone Telephone System, operating under perpetual franchises, supplies complete automatic telephone service in Philadelphia, Pa., Camden, N. J., and furnishes service also in other prosperous and growing communities in these States. By far the larger part of the Company's subscribers are of a commercial nature, the service being used by the largest banks, newspapers and manufacturing establishments in both Philadelphia and Camden.

lishments in both Philadelphia and Camden.

SECURITY: The First Lien and Refunding Mortgage Gold Bonds, of which \$4,300,000 will be outstanding with the public upon completion of this financing, are secured by a direct mortgage on all the physical property of the Company now owned or hereafter acquired. They are further secured by a pledge of \$5,000,000 principal amount of the First Mortgage 5% Gold Bonds of the Company, due July 1, 1935, of which an additional \$5,000,000 principal amount are outstanding with the public, the issue being closed at \$10,000,000 principal amount. The First Lien and Refunding Mortgage Gold Bonds, therefore, now share ratably in the direct first mortgage lien of the First Mortgage 5% Gold Bonds, and will be secured by a direct first mortgage upon the entire physical property of the Company now owned upon retirement at maturity in 1935 of the latter issue.

EARNINGS:—The earnings of the Company and its

EARNINGS: The earnings of the Company and its subsidiary for the twelve months periods ending June 30, 1926 and June 30, 1925, were as follows:

Gross Earnings\$2,041,645 \$1,950,151 Operating Expenses, including
Maintenance and Taxes other
than Income Taxes 1,041,265 1,025,428

Net Earnings\$1,000,380 \$ 924,723 Annual Interest Require-ments on total Mortgage Debt (including this

issue)\$ 496,500

Net earnings, for the twelve months ended June 30, 1926, as shown above, were thus more than twice the annual interest requirements on the total Mortgage Debt to be outstanding with the public including this issue.

VALUATION: Based upon appraisals by Day & Zimmerman, Inc., Engineers, Philadelphis, the value of the physical properties of the Company and its subsidiary is in excess of \$19,000,000, or more than twice the entire principal amount of the Company's mortgage debt to be presently outstanding with the public. These bonds will be followed by \$700,000 5 per cent gold notes, 40,000 shares of Preference Stock of no par value and 50,000 shares of Common Stock of \$50 par value.

These bonds are offered for delivery when, as and if issued and accepted by us and subject to approval of all legal details by our counsel.

or not this State shall repudiate her ratification of the Eighteenth Amendment and, by the repeal of the Wright Act, California's prohibition-enforcement law, shall turn the State over to the bootleggers, rum-runners and the horde of other lawbreakers who follow in their trial.

lawbreakers who follow in their trial.

Proposition No. 9 on the ballot is an initiative sponsored and championed by the wet interests of California, led by the Hearst newspapers. It provides for the repeal of the law whereby peace officers of California—city policemen, county sheriffs, constables and their deputies, marshals, etc.—assist Federal officers in enforcing prohibition.

Such local officers of the law comprise more than 99 per cent of the total forces now available for enforcing the law against the illegal liquor traffic in this State.

Remove them and California will be inundated with such a flood of bootleg as would make Chicago seem arid by comparison. With that flood will come such a wave of crime as this or any other State never saw. Sixty-five per cent of all

parison. With that flood will come such a wave of crime as this or any other State never saw. Sixty-five per cent of all violent crime today, according to the most conservative of expert criminologists, has its origin in the traffic in and consumption of intoxicating liquor. California is now fourth among all the States in the volume of its illegal liquor traffic. Take away 99 per cent of the existing barriers against that traffic and imagine—if you can—the result.

By reason of its long coast line and the fact that it borders a foreign country. California presents a problem of exceptional difficulty in prohibition-enforcement. Add to these factors the large population and great wealth of the State and it becomes apparent that the criminal syndicates which operate the runrunning and bootlegging business in California are playing for large stakes in their tremendous expenditures of money and effort to repeal the Wright Act, practically the lone barrier between them and complete possession of the State.

The flimsy foundation upon which their appeal is based is exemplified nowhere better than in the main argument adduced by these enemies of the Wright Act—that it should be repealed because it has not been completely effective in prohibition enforcement.

To argue that a law should be nullified because it is numerously violated is a plea for anarchy. As well declare that the laws against murder, highway robbery, burglary and arson should be repealed because they have not been completely effective in stamping out those crimes. That their repeal is favored by those who prey upon the public is scarcely a reason why that public should aid its enemies by removing the sole deterrent to their activities.

In the "wet" portions of the Seate the meaning of the seatest and the seat

In the "wet" portions of the State the proponents of No. 9 display huge, three-color posters urging the repeal of the Wright Act on the ground that it will do away with prohibition. For "dry" consumption the argument is advanced that repealing the Wright Act will aid prohibition by putting the task of enforcement solely in the hands of the Federal government. In one breath the "wets" are assured that the repeal will halt the efforts of all but the tiny handful of Federal agents in California; in the next the "drys" are told that State peace officers will still be available for prohibition enforcement work, under Federal auspices.

officers will still be available for prohibition enforcement work, officers will still be available for prohibition enforcement work, as the set of the many steel; and today is the sixty-sighth anniversary of the birth of Theodore Roosevelt, "Father of the Modern dlers of poison and create for them an atmosphere of crime and contempt for law in which to grow to their maturity. Ahundred of fifty! In velvet or velvet-trimmed crepes!

Transparent crepes and dull flat crepes afford the perfect background for bandings, appliques, deep cuffs, gipsy girdles, circular flounces and scalloped edgings—of velvet.

"The dress of velvet, and the dress of velvettrimmed crepe-" says Paris!

And so Bullock's New York buyer determines that there shall be a velvet and velvet-trimmed crepe event! . . . An event that shall combine remarkably, these fashionable ideas with a \$35 price.

A hundred and fifty of these smart dresses have just arrived. Street and afternoon types.
. . . In black, Chanel red, nasturtium reds and red-browns, the cocoa browns, Paris blue, navy, jungle green.

Bought specifically in answer to the smart woman's demand for the Paris-decreed velvet and velvet-trimmed dress. Bought specifically for this event.

Dresses of this style and quality are usually priced at much more than \$35!

A Dessert Most Aptly Called "John's Delight"

By ISABEL COTTON SMITH

Introduction by EMILY POST, Author of ETIQUETTE
—"The Blue Book of Social Usage"

HERE, at last, is a book that meets the real problem of the housewife. It tells her not only how to cook delicious things, but what to cook and when to serve it. It gives her daily menus and combinations for every season of the year. It answers for every possible occasion that puzzling question that every woman asks herself—"What shall I serve to-night, to-morrow—next week?"

All "cook-books" give standard recipes—but here is one with more than 2,000 tested recipes endorsed by some of the country's most famous chefarecipes so carefully arranged that just what is wanted can be found instantly, and including numbers of special Southern and unusual dishes for which

recipes have never before been published. No pains have been spared to make this the new and standard authority on every practice problem of the home—from picnic lunches, children's menus, and afternoon teas to suggestion for every kind of meal at any season of the year. It gives also ways of arranging a kitches of instructing new maids, or of reducing personal work to a delightful minimum. It tells he and when to buy economically, and how to run every detail of a home with the less possible effort and the most delightful result. And it is profusely illustrated.

What Every Woman Wants to Know-

Isabel Cotton Smith had first-hand experience and a real reason for every helpful suggestion of-fered. She has written this book from twenty years of personal ex-perience in her own family housedoes her own work as for those who have large households—the complete authority and the intimate friendly guide.

making his own beds and shining his own shoes.

Yesterday the young star of the cinemas gave a birthday party at the school for his fellow-students and personal friends. Unable to obtain a leave of absence except when making a picture, Jackie arranged an interesting program for his guests. Just before the huge birthday cake was out, young Coogan held a swimfest in the tank at the school and Duke Kahanamoku gave a thrilling exhibition for his young admirers.

Jackie is now 12 years of age and has been on the elveen nearly eight years. It is the plan of his parents to keep him in school through college. He, will make but two films each year and those will be arranged so as not to interfere with his schooling.

Food and Household Show Displays Big Variety of Innovations

THE third annual food and household show, in session yesterday at the Ambassador Auditorium, proved a magnet for the fair sex. Whether houseekeepers or business women, they flocked to learn new keeping or to find "what's what in eats." With the show scheduled to run until Saturday night, Waldo T. Tupper, managing director, told exhibitors to stock their booths liberally with "tastes," so the vianday participating factories might last the four days regardless of the crowd's onslaughts. The vogue of the show is "tasting," and an average mortal realizes he has swallowed a copious food cocktail before he has plength of the main aisle. Photos on this page depict some of the activities.

CO-ORDINATION EFFORTS

CO-ORDINATION EFFORTS
Mr. Miller's subject was the coordination efforts of the California
Development Association, which he
said are maintaining the State's unity
in its attempts to solve problems of
State-wide interest. Mr. McGarry's
talk was much along the same lines,
the speaker stressing the importance
of co-operation among the different
sections of the State and making a
special plea for tolerance of one section for another.

The association directors present
included President Hale, R. E. Pisher,
Harry Jackson and A. B. C. Dohrmann of San Francisco; Harry Chandier, Henry M. Robinson, E. W. Murphy, Cligton E. Miller, W. M. Garland, Frank Ryan and Maynard McFie of Los Angeles; C. C. Teague of

A Happy Woman

MAN dreams of wealth, success and power.

A woman dreams of a home of her own and Happy is the young woman whose dream is fulfilled good health, housework is not a burden. Her home ed the prattle of healthy children. She must not fail the hands. Her husband is still her comrade and confidant, a her new responsibilities. She is content, Happy, too, is the older woman who holds her children in her arms and lives to see a new generation of

dreams of its own.
